

# MOBILE EXPENSE & USAGE MANAGEMENT

Utelize's Managed Services are fully modular and can be delivered individually or as part of a tailored package

## SERVICE SUMMARY

Unused services, exceptional mobile data usage, sub-optimised tariffs and billing errors exist in almost all mobile budgets. However, in many businesses these significant opportunities to reduce and control costs often remain permanently hidden from view in complex billing and confusing contract terms. These hidden mobile costs (or profits for the network) can account for 20% or more of a typical mobile budget, and prevent IT leaders from making more productive investments in transforming IT and security.

Utelize's **Mobile Expense & Usage Management Services** combine proactive support, innovative analysis and reporting technology and our proven optimisation processes to help IT leaders to quickly release these significant savings. Our independent service works across all UK mobile networks and can be combined with our mobile procurement, mobile helpdesk and device management services to help deliver a one-stop mobile support service for your business.

## OPTIMISING ENTERPRISE MOBILE

Enabling productive and secure remote working has never been more relevant and important than it is today. However; IT decision makers are facing a wide range of new challenges when it comes to managing their remote workforce and mobile IT:

- **Delivering high quality connectivity and support for all users across many different locations**
- **Providing stable, secure and high-speed remote access to company resources, servers and data**
- **Ensuring that corporate data and mobile devices remain protected at all times**
- **Making sure that mobile costs and usage don't spiral out of control, at a time when budgets simply have to be met**

And with the rapid evolution of '5G', 'Private Mobile Networking' and the 'Internet of Things' (IoT), managing mobile services, devices, costs and usage is set to become more complex than ever.

**By Partnering with Utelize, we can help you to quickly take control of your mobile estate** - ensuring that your mobile data and devices are protected, and your costs are optimised. Using our proven tools and proactive management processes, we'll help you to quickly free up your IT team for more productive work, and with typical cost savings of 20% or more, we'll help you to release valuable budget that can be used to fund your technology investments.

## ONE STOP - PROACTIVE SUPPORT

Our **Mobile Expense & Usage Management Services** include a comprehensive and tailored support service, delivered by a named team:

- **Mobile Cost Reduction & Control** – we'll help you to quickly identify where you're overspending and put in place a programme to reduce and control costs.
- **Release your IT Team & Resources** – we'll provide tailored support, tools and reporting to help free up your IT team for more strategic projects.
- **Streamline Finance Processes** – we'll validate supplier billing, manage disputes and we can also reduce demands on your Finance team by automating cost centre recharging.
- **Improved Mobile Policy Management** – with our innovative Inview Mobile platform we'll provide you with the tools, insights and support to help manage the growing challenge of increasing mobile data and usage policy management.
- **Optimised Mobile Procurement** – our specialist team can work with your procurement team to ensure that your mobile contracts and pricing are best in class and truly aligned to your real business needs and end-user requirements.
